Activity Grading

The grade of the activity is represented by four numbers: the terrain, the distance, the altitude gain and the duration. It appears for example as G3/12km/200m/4hrs. The type of terrain is represented by a grade number: **Grade 1 (G1)** – On roads or tracks, mostly flat. **Grade 2 (G2)** – Mostly on tracks, low gradient, relatively flat terrain. **Grade 3 (G3)** – Mostly on tracks, some hilly sections, rougher terrain. **Grade 4 (G4)** – Steeper, rougher terrain, may be off track. **Grade 5 (G5)** – Mostly off track, difficult terrain. **Grade 6 (G6)** – Strenuous off-track walks. The distance is the number of kilometres to be covered. The altitude gain is the total of all the separate climbs in the activity. The duration is the actual time taken for the activity, not including travelling time.

Grading is subjective and cannot consider all possible factors, so if you are uncertain about the grade, the terrain, or the experience and fitness required, ask the leader for advice.

Bookings: are required for all activities unless otherwise specified. People leading an activity for the club may decline any request to attend. Visitors are welcome on walks with the permission of the leader and are covered by the Club's insurance. Obtain the leader's permission before bringing any other person on an activity or if considering leaving an activity prematurely. People under the age of 18 must be accompanied by a responsible adult and are that person's responsibility for the duration of the activity. All participants are required to sign an Assumption of Risk (waiver) form.
